TELEMETRY COLLECTION LAYER
Host Monitoring Sensor
(Process Execution, File Writes,
Network Sockets)
Browser Companion Agent
(Web Navigation, URL Reputation,
Download Inspection)
Telemetry Ingestion & Feature Normalization Engine
(Standardized Event Structuring & Feature Extraction)
HYBRID DETECTION & THREAT EVOLUTION LAYER
Statistical Anomaly Detector
(Isolation Forest Random Trees
Outlier Detection)
Behavioral Digital Twin
(User Login Hours, Known Apps,
Hardware Baselines)
Composite Threat Evolution Engine
(Multi-Factor Dynamic Risk Tracking & Graduated Response Policy)
CORRELATION & RESILIENT STORAGE LAYER
Temporal Knowledge Graph
(Entity-Relationship Tracking,
Multi-Stage Attack Reconstruction)
Offline Write-Ahead Queue
(Local SQLite Transaction Logs,
Idempotent Cloud Synchronization)
Security Operations Center (SOC) Desktop Dashboard
(Real-Time Incident Timelines, Alert Management & System Controls)
